

HUMICPROTECT

DATA SHEET

HumicProtect is obtained through the extraction of Leonhardite being a 100% organic product, directly influences the fertility of the soil and in turn contributes significantly to its stability, affecting the absorption of nutrients and consequently the growth of the plant.

COMPOSITION

• Humic Acids	66.5%
• Fulvic Acids and other org mat.	10.10%
• Potassium	10.20%
• Inert Materials	13.20%

AGRICULTURAL USE

HumicProtect guarantees a 100% organic and high quality product that can be used for the following crops, although this recommendation is not limited to other agricultural crops: **Vegetables in general:** Cabbage, cauliflower, broccoli, compass cabbage, radish. **Fruit trees in general:** Avocado, citrus, peach, guava, mango, coconut, banana, papaya. **Solanaceae:** Tomato, chili, potato, eggplant, pepper **Cucurbitaceae:** Cucumber, melon, watermelon, pumpkins. **Seeds:** maize and sorghum wheat, barley and oats. **Berries:** blueberry, raspberry, blackberry, blackberry. **Other crops:** Celery, asparagus, lettuce, onion, chives, carrot, walnut, pineapple, vine, sugar cane, cotton, agaves, oil palm.

BENEFITS

- Stimulates the development of microbiota in the soil.
- Improves soil behavior and humidity retention.
- Increases nutrient absorption capacity.
- Strengthens the roots and improves the vigor of the plant.

APPLICATION METHOD

HumicProtect is applied injected to the root with pump or directly in the irrigation system, as well as in foliar route.

Always make sure that the implement to be used has not had a previous pesticide or pesticide.

Wash the pump thoroughly before use.

Preferably use neutral soap powder.

- It is recommended to dilute, per 2.5 acres, 250 g of **HumicProtect** in natural water as clean as possible for crops of 1-9 kg and for crops of 10-50 kg use 1 kg per 2.5 acres and 60-100 kg use 2 kg per 2.5 acres of **HumicProtect**.
- Do not dilute in more than 300 L per 250 g of **HumicProtect** because minimal doses are needed to create a favorable effect on the plant.
- Do not eat, drink or smoke during applications, wash your hands before and after using the product.

APPLICATION FREQUENCY

It is recommended to make 2-3 applications per crop cycle, for an optimal effect or in the plant with a monthly frequency, which will achieve in the plant a healthy nutrition and defense of the crop.

DOSAGE:

Crop	General
Dosage	250g/ 2.5 acres
Frequency	Monthly
Application	2-3 applications

COMPATIBILITY WITH OTHER PRODUCTS

HumicProtect is compatible with all types of fertilizers.

In case of making an application of an herbicide or pesticide it is necessary to review the residence time of said product and make sure that the application of **HumicProtect** is outside this period.

Consult your technical advisor for compatibility with other products.

STORAGE AND TRANSPORT CONDITIONS

- Store the product in cool, covered places at room temperature.
- Do not expose it to the sun's rays.

TOXICITY

100% organic product.

It is not phytotoxic at the recommended concentrations, stages and forms of application. In case of ingestion or discomfort at the time of use, induce vomiting and consult your doctor.

Let's treat our crops with organic products!
