

AGAVEPROTECT

STIMULANT FOR SUCULENTS AND CACTUS

ORGANIC FERTILIZER FOR HOME USE

HOME LINE

SHAKE WELL BEFORE USE!

AgaveProtect owned by Microendo Inc., is a product made from the selection of the best microorganisms obtained from the *Agave tequilana* plant itself. It is a patented and unique product on the market, specifically designed for use on Agavaceae, succulents, and cacti.

AgaveProtect guarantees a high-quality product that is harmless to humans and beneficial to the environment. Ideal for all types of Agavaceae, it provides a 100% organic solution in a more logical and natural way, harmonizing with the environment.

BENEFITS

- Strengthens the plant's immune system.
- Reduces plant stress.
- Balances the plant's Microbiota.
- Stimulates plant growth.
- Increases the number of leaves and roots.

BIOLOGICAL COMPOSITION

Enterobacter spp. 1×10^9 UFC/ml

APPLICATION METHOD

AgaveProtect comes from a fresh and metabolically active crop, which is why it is recommended for use at the time of reception. Very early or during the afternoon, avoiding long hours of sun and solar radiation. The product is applied directly to the base of the plant putting the sprinkler in STREAM mode, before watering the plants. Do not eat, drink or smoke during applications, wash your hands before and after using the product

APPLICATION FREQUENCY

It is recommended to make 3-5 applications for optimal colonization of the plant, with a frequency of 5 days each.
