### ORGANIC PROTECTOR FOR HOME

HOME LINE

#### SHAKE WELL BEFORE USE!

TricoProtect is a biofertilizer/biofungicide whose action is based on the activity of the fungus *Trichoderma harzianum*.

TricoProtect guarantees a high-quality product, harmless to humans and beneficial to the environment, ideal for all types of agricultural, fruit and ornamental crops. Providing you with a 100% organic solution in a more logical and natural way with the environment.

## BENEFITS

- Protects against pathogenic root fungi.
- Increases root development.
- Enhances fruit development.

## BIOLOGICAL COMPOSITION

*Trichoderma harzianum* 1x10<sup>9</sup> UFC/ml

## APPLICATION METHOD

TricoProtect comes from a fresh and metabolically active crop, which is why it is recommended for use at the time of reception. Very early or during the afternoon, avoiding long hours of sun and solar radiation. The product is applied directly to the base of the plant putting the sprinkler in STREAM mode, before watering the plants. Do not eat, drink or smoke during applications, wash your hands before and after using the product.

## APPLICATION FREQUENCY

It is recommended to make 3-5 applications for optimal colonization of the plant, with a frequency of 5 days each.
