

AVOCADOMICROBIOTA

AVOCADO MICROBIOTA

SPECIFIC MICROORGANISMS FOR AVOCADO FILLING

PLANT MICROBIOTA

AvocadoMicrobiota Filling owned by Microendo Inc, is the first product made from the selection of the best microorganisms obtained from avocado plants, being a unique and patented product in the market. **AvocadoMicrobiota Filling** is a bio-inoculant made from a probiotic mixture that stimulates the filling of the Avocado fruit. In addition to strengthening the immune system of the plant and reducing stress in it; recovering the Microbiota. With the use of **AvocadoMicrobiota Filling** you can reduce the use of your chemical fertilizers by up to 50%. Providing you with a 100% organic solution in a more logical and natural way with the environment.

BENEFITS

- Bio-inoculant specially designed for Avocado Filling.
- Increases fruit size
- Balances the plant's Microbiota.
- Protection against pathogens.
- Reduces plant stress

BIOLOGICAL COMPOSITION

Enterobacter spp. 1×10^{14} UFC/ml

Bacillus spp. 1×10^{13} UFC/ml

Enterobacter spp. 1×10^{15} UFC/ml

APPLICATION METHOD

AvocadoMicrobiota Filling comes from a fresh and metabolically active crop, which is why its use is recommended at the time of receipt. The product is applied injected to the root, with pump or directly into the irrigation system. Always make sure that the implement to be used has not had a previous bactericide or fungicide. Wash the fertigation pump or water tank very well before using them. Preferably use neutral soap powder. Do not eat, drink or smoke during applications, wash your hands before and after using this product. It is recommended to dilute per hectare, 1 Liter of **AvocadoMicrobiota Filling**, composed of Stimulant, Antistress and Protector, 333 ml of each product in natural water as clean as possible. Never put only one of the three components, because the three products of **AvocadoMicrobiota Filling** act together. Do not dilute in more than the indicated amount of **AvocadoMicrobiota Filling** because microbial crops require a minimum concentration to act.

PLANT MICROBIOTA

APPLICATION FREQUENCY

It is recommended to make 3 applications per hectare for an optimal colonization of the plant with a frequency of 7-10 days each, which will achieve in the plant a healthy nutrition and defense of the crop.

DOSE

| | |
|-------------|----------------|
| Crop | <i>Avocado</i> |
| Dose | 1 L/1 ha |
| Frequency | 7-10 days |
| Application | 3 applications |

COMPATIBILITY WITH OTHER PRODUCTS

AvocadoMicrobiota Filling is compatible with some fertilizers. In case of applying a bactericide, fungicide, pesticide or insecticide, it is necessary to check the residence time of said product and make sure that the application of **AvocadoMicrobiota Filling** is outside this period, as well as wash the material with which the application is going to be made well with neutral soap to ensure that traces of the product are avoided. Consult your technical advisor for compatibility with other products. It is not recommended to apply **AvocadoMicrobiota Filling** if a subsequent application of bactericides, fungicides or any similar product is planned as this would kill the population of microorganisms applied with **AvocadoMicrobiota Filling**.

STORAGE AND TRANSPORT

Store the product in cool, covered places at room temperature. Do not expose it to the sun's rays.

TOXICITY

100% organic product. It is not phytotoxic at the recommended concentrations, stages and forms of application. In case of ingestion or discomfort at the time of use, induce vomiting and consult your doctor.
